- 1-8 turbines may be theoretically visible
- 9-17 turbines may be theoretically visible
- 18-26 turbines may be theoretically visible
- 27-35 turbines may be theoretically visible

Note: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The areas shown indicate the maximum theoretical visibility of the proposed turbines using OS Terrain 50 data only and do not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.
