

Key

- Proposed turbine locations
- Lines indicating the distance from the proposed turbines
- Existing Wind Farms
E01) Beinn Ghrideag
E02) Pentland Road
- Stornoway wind farm may be theoretically visible
- Beinn Ghrideag wind farm may be theoretically visible
- Pentland Road wind farm may be theoretically visible
- Stornoway and Beinn Ghrideag wind farms may be theoretically visible
- Stornoway and Pentland Road wind farms may be theoretically visible
- Beinn Ghrideag and Pentland Road wind farms may be theoretically visible
- Stornoway, Beinn Ghrideag and Pentland Road wind farms may be theoretically visible

Notes: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The areas shown indicate the maximum theoretical visibility of the proposed turbines using OS Terrain 50 data only and do not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.

This figure has been based on the following parameters:
Turbine layout file: LSTORNOWAY045.WFL
Hub height: 105m / 88m
Rotor diameter: 150m / 136m
Height to blade tip: 180m / 156m
